SKILLS

PROGRAMMING
Java • React • Python • Javascript
HTML • Matlab • CSS • C
• Springboot • MySQL

PROJECT

GYM MANAGEMENT SYSTEM
- Built a website that manages the gym users. Technologies which were used are :-
JAVA (Spring Boot)   HTML `   CSS

VISION BASED OBJECT VERIFICATION FOR INDUSTRIAL APPLICATION
- I have created a hardware model and a software model in which software detects the object which is around the web – camera using python library (OpenCV) and created an arm like structure with the help of servo motors which moves to the object with the help of co – ordinates passed by the software.

EXTENSION HELPER
- Created a website which shares helpful extensions for coding, educational videos, placement news etc. In which frontend and Backend was managed using react and JAVA spring boot framework.

ACHIEVEMENTS

WINNER OF MATHS OLYMPAID QUIZ TAKEN BY MUMBAI UNIVERSITY
2017

SUPER 30
2021
Got selected for super 30 coaching classes at MIT Academy of Engineering in which Full Stack web development is taught.

EXTRA-CURRICULAR ACTIVITIES

Class Representative (CR):
- Acted as a liaison between students and faculty, facilitating communication and addressing concerns within the class.
- Organized class events, meetings, and represented student interests in various academic and non-academic matters.

Placement Coordinator:
- Led efforts to connect students with potential employers, arranging placement drives, and coordinating with companies for campus recruitment.
- Provided guidance and support to fellow students regarding resume building, interview preparation, and career opportunities.
